

# NewAthena Community e-Newsletter

Issue #5 17 December 2024

## Greetings 2025

Recent and upcoming exciting results from current missions foretell the wonders that *NewAthena* will discover. A re-structured *Athena* Community with renewed energies will look forward to engaging in 2025 on the preparations for the Red Book in 2026, and on to Adoption.

**Happy and busy 2025!**

## 2025 NewAthena Calendar

The 2024 Athena **calendar** presents a collage that showcases some of the scientific topics and observations in which *NewAthena* will provide flagship science in the late 2030s, and many more to come. The high-resolution version of the calendar is accessible [here](#).

## Athena X-ray Advances Science Webinar: starts 2025

The Athena Science Webinars series will resume on 23 January 2025 with the webinar titled "*XMM-Newton: scientific strategy*" by **Norbert Schartel** (ESA/ESAC).

We'd like to remind you that the recordings of the webinars are open access in [this YouTube playlist](#).

Additionally, the PDF version of the presentations are available in [this section](#) of the Athena Community website.

Finally, we want to remind you of the possibility of **submitting proposals for giving a webinar**. Please fill out [this form](#) to submit your proposal.
