11th February 2025: International Day of Women and Girls in Science

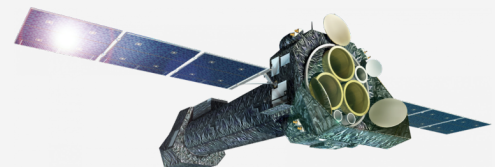

The *Athena* Community Office (ACO) is once again celebrating the [International Day of Women and Girls in Science on 11 February](#), as established by the United Nations.

This year, the ACO is excited to present a "Who is Who" online game to help you learn interesting facts about five brilliant astronomers. [Click here to access the game](#) and have fun learning with us!

A new version of XMM-Newton SAS (Science Analysis Software) has been released

The Science Analysis Software (SAS) is an extensive suite of software tasks developed to process the data collected by the XMM-Newton Observatory. SAS is released periodically with new software developments and bug fixes to improve the processing of XMM-Newton data.

The latest version of SAS (22.0) was released on 31 January, and it is accessible to download [at this link](#).
